Bsc in CSE (Software Development) - 3.70

BCIC College
HSC - 4.00

Dhaka Shiksha Board Laboratory School and College
SSC - 5.00

PROJECT

Bank Management System ⬈

Developed a full-stack Internet Banking application for core banking operations.
Technical Stack: PHP, HTML, CSS, MySQL.
Responsibilities: Created and executed detailed test cases for
modules like accounts, branches, and loans. Documented defects and
collaborated with team members for resolution. Conducted UAT to
ensure feature requirements and usability.

E-Commerce System 'PlayTech' ⬈

Designed a web application for PC component sales, focusing on usability and real-time updates.
Technical Stack: HTML, CSS, Bootstrap, PHP, MySQL.
Responsibilities: Developed test plans for seamless product selection, navigation, and transactions. Conducted usability tests and implemented feedback to enhance user experience

SKILLS

- Programming: Proficient in PHP, Laravel, HTML, CSS, Bootstrap, JavaScript, and MySQL.
- Frameworks: Experience with Laravel, Bootstrap, and familiarity with React.js basics.
- Testing: Manual, functional, regression, smoke, and user acceptance testing (UAT).
- Documentation: Creating test cases, test plans, and defect tracking using JIRA.
- Database Management: Basic SQL for data validation and querying.
- Version Control: Basic knowledge of Git and GitHub for code management.
- Collaboration: Effective communication for issue resolution and teamwork.
- Problem Solving: Strong analytical skills and attention to detail.
- Tools: MS Office (Word, Excel, PowerPoint), JIRA.
- Soft Skills: Time management, adaptability, and teamwork.
